Write-Offs and Reserves

The Bank writes off assets or reserves provisions on the basis of self-assessment results, which are reviewed by independent auditors. It has made sufficient provision for its existing problem loans.

Normal Need Special Attention	Reserve provisions made on the basis of a formula using past actual loan losses
Risk of Bankruptcy	Reserve provisions made to the necessary level in relation to the amount not covered by collateral
Virtually Bankrupt Legally Bankrupt	Reserve provisions and write-offs made for the entire amount not covered by collateral

- All credit transactions are subject to asset self-assessment under the practical guidelines laid out by the Japanese Institute of Certified Public Accountants. The Shoko Chukin Bank writes off assets and reserves provisions based on the results of these assessments. The Bank uses this approach to ensure asset quality is accurately monitored and problem loans are appropriately written off. The Bank also uses it to manage loans after loan application procedures are completed.
